Hello _____, this is _____, from Russell Brunson's office. How are you doing? Great! I understand you have been speaking with _____. He tells me you are very serious about internet marketing, is that correct? Why are you so serious right now? How long have you been thinking about making money with internet marketing?

Now I know_____ asked you to write a few things down. Did you finish that? Great! Let's go through it. What did you write down for your 6-month financial goal Why is that important to you? Great! What did you write down for your 12-month financial goal? What would that do for you? (Pull out the hot buttons!!!! Let them tell you how to sell them.) So basically you're telling me financial independence is something you are trying to achieve, is that correct? If you could picture yourself, lets say five years from today, and you had achieved financial independence, how would you describe your lifestyle? Let me explain that financial independence through internet doesn't happen overnight. It will take hard work and dedication, but with the right approach and help from our experts it will happen. Let me ask you, if you could work with someone like Russell Brunson, someone that knows the ins and outs of internet marketing, and could take you by the hand and walk you step by step through the process, how would that make a difference in your success? Why is that important to you? (how, why, etc.) So it seems to me you have the goals and desires, but you lack the direction of knowing how to do it, is that correct? So once again if you could have an expert that could take you and teach you and train you, do you see anything holding you back from achieving these goals?

Did_____ tell you what I do for Mr. Brunson? Let me just sum it up for you very quickly. I am the Senior Director of our Success Team and my job is to find the people that I feel are the most serious and committed in creating financial independence through internet marketing. And most importantly _____, my job is to build the success stories we've been talking about. _____, I know what it takes for someone to be a success in this program. Now, I also know why people fail in internet marketing. So, in our conversation today I am going to cover 4 commitments that I must have you make before I can have you come aboard our program. When I ask for those commitments I do expect a yes or no answer. The reason being, is because you are either willing to commit to these things or you are not. These areas are the key to your success. Does that sound fair? Great.

Now, with our experience in internet marketing we have found that there are four areas that could either hold you back from achieving your goals or they could be major steppingstones to financial independence. These are four areas we are going to have you make commitments to us. I'm going to have you write these down. Do you have a piece of paper and a pen? Ok?

1.Time
2. Decision Making

3. Resources/Money
4. Knowledge

TIME: As you know, time is money and if you don't know what to do with your time, than you are losing money. Wouldn't you agree? Working with a coach you will need to commit at least 5-10 hours a week for the next ____ months. Are you willing to do that? Yes or no? Go ahead and cross time off your list.

DECISION MAKING: Do you realize why it's so important to make a decision today? Why? Good, now the most important principle in internet marketing is simply that the good deals don't wait around! That is especially true the way we teach you to do internet marketing, since we teach our students how to build a successful business we need people that we feel are good decision makers. Why do you think we are looking for decision makers? So, I need to know that you can make good, solid decisions when you need to. Do you see anything holding you back from making the decisions to get started and beginning your business today? Yes or no?

RESOURCES: Now this is an area that is important to all of us. We all work very hard for our money and in some cases too hard with not enough results. But the great thing about our program is that you are working with an experienced internet marketer who has spent many hours with many people on many different types of online business. Their experience is the safety net we all dream about. Now in working with one of our coaches it will take a commitment of capital. Two things have to happen to make this work. Number one, we don't want you pulling money out of your own pocket. We want to teach you the concept of OPM or other people's money to build your business. And two, the business has to pay for itself. If these two things can't happen we can't have you be part of this program. Now let's talk about these things. Number one when we talk about OPM or other people's money, are you familiar with that concept? Have you ever used other people's money to make you money in the past? Well using OPM isn't rocket science it simply means using the banks money that they have already loaned you on a credit card. Have you ever used your credit to actually make you money? The majority of Americans use their cards to create debt, bad debt, debt that can't pay itself off. I'm not talking about that kind of debt. I'm talking about using a credit card as a short term leveraging tool, to build your business, buying us time to get you up and running so the business can pay for itself. Is using a credit card to build your business as long as the business can pay itself back is that a strategy you would be willing to use? I understand _(setter)_____ discussed with you that people in our program commit at different levels to begin their business. It looks like the _____ is the one you picked. Why did you pick that one? Write down the amount of $_____.

As long as it makes sense, you see this is a value, and you see this meeting all of your goals, is there anything that would hold you back from getting started and placing that commitment of $_____ on a credit card today? Great! Go ahead and cross resources of your list.

KNOWLEDGE: There is really no way to teach you everything you need to know in one conversation to generate the type of income we have talked about. My main concern is we are working with someone who is open minded and teachable and willing to do what it takes to be a success. Do you feel you are that person? Why? Great!

We are going to give you all the knowledge you need, so that mistakes are not made. You will be working with the mentors at your own pace, if you need to go slower or faster, it's up to you.

WHAT'S INCLUDED: Let's go ahead and talk about some of the major points we will be working on with you. (This is where you'll talk about everything they'll be getting when they join your coaching program).

So working in that type of situation where a coach is looking over your shoulder teaching you and training you, yet you are out doing the work so you can learn, do you see yourself working in that type of situation? How?

CLOSE: I am going to be the first one working with you. What we need to do now is get some information from you. We are going to be shipping out some materials to help you work more effectively with your coach. Those materials are being shipped UPS, so what is your physical address? Great! What is the best phone number for your coach to contact you? E-mail address?

The total commitment comes to $_____.

Suggested Closes:

1. What card or cards do you want to put that on? Great, I can hold on while you get those.
2. How does your name read on the first card you want to leverage this on?
3. Did you want to put that on one or two cards?
