"Two Typed Pages" That Can Add Tens Of Thousands Of Dollars Of Yearly Profits To Just About Any Retail Or Service Business

www.getwsodo.com

In this brief Report, I'm going to hand you two very powerful, marvelously simple moneymaking tools.

Moneymaking Power Tool#1: NAME CAPTURE

On several separate occasions, I have worked hands-on with retailers or service-type businesses (such as: auto parts stores, instant print shops, dental offices, auto repair, etc.) and observed the following:

#1: They get a lot of calls from prospective customers.

#2: Many calls come from the Yellow Pages ads or other ads.

#3: Many ask one or two questions..."how late are you open?"..."do you carry widgets?" or price: "how much do you charge for....?"

#4: Most employees answer the question and get off the phone as quickly as possible.

#5: There is no capture of these callers' names and addresses.

Simply by altering the way the questions are answered, you can make a significant difference in your business - although that is not the subject of this Report. Here, we'll just focus on #'s 4 and 5. Understand that you invested money in getting each of these calls. You paid for the call. With that in mind, let's do everything we can to get a return on that investment. We do that through "lead capture." Each of these callers is a valuable lead that **DESERVES THOROUGH FOLLOW-UP.**

You can get a device/service from the phone company that will give you the phone number of the caller; these can be logged and used for subsequent outbound telemarketing. However, my preferred strategy is to ask for and get the caller's name and address. And if you are having the phones answered by employees, the way to do this is: (a) give them a script to follow and form to fill in and (b) pay them ($1.00!) for each completed Form. So, **TYPED PAGE #ONE is this Script/Form,** a sample of which is included in this Report.

A busy store may yield as many as 20 of these captured leads per Saturday, 40 to 50 or more per week. If you advertised to get such leads, you might spend $5.00 to $15.00 per lead. If you capture these that are already coming to you, that's like MAKING $5 to $15 each. And you must get your thinking cap on straight about the value of these leads.

Moneymaking Power Tool #2: FOLLOW-UP

These leads should then be followed up with:

A) An immediate letter* and package of information.

B) Plugged into a plant-the-farm letter sequence

(refer to my MAGNETIC MARKETING KIT for details).

C) Sent your newsletter.

D) Turned over to salespeople or telemarketers, if you use them.

*This is **TYPED PAGE #TWO**, also included with this Report.

TELEPHONE CALL/QUESTION HANDLING
PROCEDURE & LEAD CAPTURE FORM

AFTER ANSWERING CUSTOMER'S QUESTION:

"Mr/Mrs. _____, we appreciate your call to our store. My Manager likes to send some discount coupons in the mail, as thanks, to every caller, and asks that I get your name and address for that purpose. May I have your street address please? _____

And the city and zip code, please..._____(City) _____(Zip)

And you said your name was Xvxvx ADSADSADA - let me be sure I have that down correctly....._____

And just one other question - where did you hear about us or see our advertising?_____

Note: You will want to integrate this with your complete script for handling your incoming calls.

"THANKS FOR CALLING - I HAVE A *FREE* FLASHLIGHT AND A *FREE* CAR WASH WAITING FOR YOU AT THE STORE..."

Hi! Last week, you called in to the store with a question or two. I hope your questions were answered and your needs were met. (If not, I do want to know about it. My direct line is 659-FIXX. Call ME.) Anyway, I appreciate your call. I make no bones about it: I'm eager to attract new customers! I'm pretty confident that once you do business with us once, we'll be your auto products supply choice for life. (My list of *21 Reasons Why Big Al's Is The Only Auto Parts Joint You'll Ever Want To Do Business With* is enclosed.)

So, I've got TWO FREE GIFTS (bribes, actually) set aside in your name, just to get you to come in and check out my joint.

First, is a nifty little flashlight, to keep in your glove box or trunk. It's got an extra-high-power beam...much bigger than its size! I even include the batteries. Second, a coupon for a Car Wash, "on me", down at the Classic Car Wash on 9th Street. This coupon'll save you $9 and put a smile on your buggy's grille. All you have to do to get both gifts is stop in and look around, anytime within the next two weeks. Bring this letter with you. The offer's expiration date is stamped at the bottom, in red.

But that's not all: this same letter is good for a 5% INSTANT CASH DISCOUNT on ANY purchase you make when you come in. Items priced at regular OR sale prices, it doesn't matter. Ten dollars or ten thousand - doesn't matter. Just present this letter for your 5% discount. I've enclosed this month's SPECIAL OFFERS flyer, too. Maybe there's something on it you could use - or get for somebody as a gift - and take advantage of the sale price AND the extra 5% discount.

I hope to see you at my joint soon.
